

Public-Private Partnerships - An N2Africa Initiative to Ensure Sustainability - Ethiopian example

Tamiru Amanu, Endalkachew Woldemeskel and Edward Baars

Introduction

N2Africa designs and develops public-private partnerships to ensure long-term sustainability of

- Knowledge transfer
- Legume technology dissemination
- Efficient input supply chains
- Access to markets.

Partnership Process

The process of partnership development involves a number of steps:

- Map legume value chain actors
- Consult priority actors and support institutions
- Define interests, roles and responsibilities
- Design and develop strategic partnership frameworks (models)
- Sign partnership agreements
- Implement the Partnership Planning document through sub-grants
- Coordinate and govern the partnership
- Enrich the partnership with additional value chain partners & fundraising
- Joint learning and project Monitoring and Evaluation (M&E)

N2Africa works in eleven countries of sub-Saharan Africa

Funded by the Bill & Melinda Gates Foundation through a grant to Wageningen University, N2Africa supports more than 500,000 smallholders in DR Congo, Ethiopia, Ghana, Kenya, Malawi, Mozambique, Nigeria, Rwanda, Tanzania and Uganda and Zimbabwe to enhance food & nutrition security, household incomes through sustainable intensification and diversification with nitrogen fixing grain legumes

Model for input and service delivery and marketing

Sustainable scaling

N2Africa's Public-Private Partnerships in four regions of Ethiopia will reach more than 120,000 smallholders by 2018
